

I am very concerned about what is allowed on television today. When I was a child, "Little House on the Praire" was the number one television show. Today, sitcoms are filled with poor examples and sex, sex, sex.

I am especially disturbed when I watch the Superbowl or Monday Night football with my 9 year old son and I have to have my finger on the remote to flip channels in case a naked woman appears on the screen. The cleavage shots of the cheerleaders is bad enough! Please do something to protect our children. How can you allow the filth and garbage that Howard Stern, MTV, Saturday Night Live, and dozens of other shows distribute each week? This nation's future is in grave danger.

Is this what our founding fathers meant by freedom of speech? I think not!
